

Week 4 — Accessibility Review & Cultural Values

Today's focus

- Review an existing media platform for accessibility **and** cultural assumptions
- Identify user barriers beyond “missing alt text”
- Connect findings to inclusive design decisions

Roles

Role	Name
Facilitator	
Accessibility lead	
Cultural / context lead	
Presenter	

Activity 1 — Platform & audience (15 min)

Field	Notes
Platform	
Intended primary audience	
Secondary / edge audiences often ignored	
Locale / language settings tested	

Activity 2 — Barrier hunt (40 min)

List barriers. Tag type: **A** = access / sensory / motor · **C** = cultural / language / values · **B** = both.

#	Barrier (what happens)	Who is affected	Type A/C/B	Severity (H/M/L)
1				
2				
3				
4				
5				

Activity 3 — Cultural values discussion (30 min)

Answer as a group (short notes only):

Prompt	Notes
What “normal user” does this UI assume?	
Where do icons, colours, or metaphors rely on local knowledge?	
What would change for a first-time user from another region / age group?	
One inclusive redesign move that does not water down the brand	

Activity 4 — Priority fix card (20 min)

Pick **one** high-severity barrier and write a fix card:

Field	Text
Barrier	
Root cause (guess, then state how you’d verify)	
Proposed change	
How you would validate with users
