

Week 1 — Design Workflow Orientation

Today’s focus

- Orient to the UCD / Design Thinking workflow used in this subject
- Review selected digital media examples as a group
- Draft an initial user problem (people + constraint, not a product pitch)

Roles (assign before Activity 1)

Role	Name
Facilitator (time & turn-taking)	
Note-taker	
Presenter (2-min share-out)	

Activity 2 — Strong problem framing (35 min)

Rewrite the friction as a **human-centred problem statement**.

Weak: "Build a better [product]."

Strong: "[User group] struggle to [goal] when [constraint], which leads to [consequence]."

Draft	Text
User group	
Goal	
Constraint / context	
Consequence	
One-sentence problem
