

Week 10 — High-Fidelity Prototype Development

Today’s focus

- Raise fidelity: components, styles, transitions
- Keep clickable flows tied to the Week 9 task path
- Avoid decorative work that does not serve the primary task

Roles

Role	Name
Facilitator	
Design system / styles lead	
Interaction / prototype lead	

Activity 3 — Transitions & micro-interactions (25 min)

Only where they clarify state.

Interaction	Trigger	Feedback to user	Needed? (Y/N)

Activity 4 — Clickable flow QA (30 min)

QA walks the primary task **without coaching**. Log friction.

Step	Expected	Observed	Severity H/M/L	Fix owner
