

Week 9 — Wireframing Workshop

Today's focus

- Wireframe the primary concept at low / mid fidelity
- Check layout hierarchy and task-flow alignment
- Defer visual polish until Week 10

Roles

Role	Name
Facilitator	
Flow lead	
Layout lead	
Critic (task-success only)	

Activity 1 — Task & content inventory (20 min)

Primary concept: _____

Field	Notes
Primary user task	
Success looks like	
Must-have content blocks (list)	
Nice-to-have (park for later)	
Tool (Figma / pen-paper / other)	

Activity 2 — Task flow (25 min)

List screens in order. Keep labels functional (e.g. “Confirm booking”), not decorative.

Step #	Screen name	User action	System response
1			
2			
3			
4			
5			
6			

Activity 3 — Wireframe build (50 min)

Sketch or build frames for steps 1–N. On each frame mark:

- Primary CTA
- Supporting content
- Navigation / exit

Layout review checklist (critic fills):

Check	OK?	Note
Content before chrome		
Hierarchy matches task priority		
Empty / error / loading considered		
Accessibility: labels & order make sense		
Flow matches Activity 2		

Activity 4 — Alignment fix list (15 min)

Issue	Screen #	Fix before Week 10
